- Django
- Django REST Framework
- MySQL, Redis, MongoDB
- Agile Methodology
- REST, JWT Authentication
- HTML, CSS
- VS Code, GIT, GitHub, Postman
- OOPs Concepts

SOFT SKILLS

- Time Management
- Problem Solving
- Self Motivating
- Hard Working
- Communication Skill
- Honesty

PROJECTS

• Building a Scalable Real-Time Customer Relationship Management Web Application

Description- Developed a “scalable real-time CRM web application” using Django for the backend and Web Sockets (via Django Channels) for live updates and interactions. Implemented core CRM features such as lead management, customer activity tracking, real-time messaging, and automated workflows. Designed RESTful APIs, integrated PostgreSQL for data persistence, and used Redis for managing asynchronous tasks and real-time communication—emphasised security with user authentication, permissions, and role-based access control.

Key Technologies- HTML5, CSS3, Bootstrap, ReactJS, PostgreSQL, Django REST Framework, Redis, Websocket, REST API Library

• Bankist Application (Academic Project)

Description- Developed Bankist, a full-stack banking web application with Django REST Framework and SQLite for secure authentication, transactions, and account management. Built a responsive frontend with JavaScript and deployed the solution on Netlify (frontend) and Render (backend), enabling real-time financial operations and a seamless user experience.

Key Technologies- Django, Django REST Framework (DRF), SQLite, HTML, CSS, JavaScript, RESTful APIs, Authentication & Authorization

INTERNSHIPS

Junior Python Developer Intern at VichaarLab Pvt. Ltd.

MARCH 2025- JUNE 2025

CERTIFICATIONS

- Software Engineering From NPTEL JUN 2024- OCT 2024
- AI Powered Blockchain Builder From FITT, IIT Delhi SEPT 2024- DEC 2024
